

# GUIDE TO WORKING SAFELY WITH TREATED TIMBER

Always wear dust mask and goggles

Always wear gloves when working with treated wood

Wash work clothes separately

Do not use treated wood shavings or sawdust as animal litter

Dispose of waste in an approved landfill

Do not use treated wood to cook food

Do not burn treated wood

Treated wood should not come into contact with drinking water

## CLASSIFICATIONS FOR TREATED TIMBER

### H1 Hazard Level

**Exposure** – inside above ground. **Conditions** – completely protected from the weather and well-ventilated. **Biological Hazards** – insects other than termites (i.e. lyctid or anobiid). **Uses** – framing, flooring, furniture, and interior joinery.

### H2 Hazard Level

**Exposure** – inside above ground. **Conditions** – completely protected from the weather and well-ventilated. **Biological Hazards** – borers including termites. **Uses** – framing, flooring, furniture and interior joinery.

### H3 Hazard Level

**Exposure** – outside above ground. **Conditions** – subject to periodic moderate wetting and leaching. **Biological Hazards** – moderate decay, borers and termites. **Uses** – weatherboard, fascia, window joinery, framing and decking.

### H4 Hazard Level

**Exposure** – outside in ground. **Conditions** – subject to severe wetting and leaching. **Biological Hazards** – severe decay, borers and termites. **Uses** – fencing, greenhouses, pergolas and landscaping timber (non-critical structures).

### H5 Hazard Level

**Exposure** – outside in ground contact with or in fresh water. **Conditions** – subject to extreme wetting and leaching and/or where the critical use requires a higher degree of protection. **Biological Hazards** – very severe decay, borers and termites. **Uses** – retaining walls, piling, house stumps, building poles, cooling tower fill.

### H6 Hazard Level

**Exposure** – marine water. **Conditions** – subject to prolonged immersion in sea water. **Biological Hazards** – marine wood borers and decay. **Uses** – boat hulls, marine piling, jetty cross bracing, landing steps etc.
